Top 100 MBBS Colleges in India 2026

This document provides a comprehensive list of the top 100 MBBS colleges in India, including their names, locations, and the standardized MBBS curriculum followed across Indian medical institutions.

---

1. All India Institute of Medical Sciences (AIIMS), New Delhi

Location: New Delhi, Delhi

Curriculum: The MBBS program follows the National Medical Commission (NMC) competency-based curriculum spanning 5.5 years (4.5 years academic + 1 year internship).

Phase I (Pre-Clinical - 1st Year): Anatomy, Physiology, Biochemistry, Community Medicine, Humanities, AETCOM module

Phase II (Para-Clinical - 2nd Year): Pathology, Pharmacology, Microbiology, Community Medicine, Forensic Medicine & Toxicology

Phase III (Clinical - 3rd to 5th Year): General Medicine, General Surgery, Obstetrics & Gynaecology, Pediatrics, Orthopedics, Dermatology, Ophthalmology, ENT, Psychiatry, Respiratory Medicine, Radiodiagnosis, Anesthesiology, plus 2 months electives

---

2. Post Graduate Institute of Medical Education and Research (PGIMER), Chandigarh

Location: Chandigarh, Chandigarh

Curriculum: Follows NMC guidelines with integrated competency-based medical education.

Phase I: Focuses on foundational sciences - Anatomy (gross anatomy, histology, embryology, neuroanatomy), Physiology (body systems and functions), Biochemistry (metabolic pathways, genetics), and early clinical exposure

Phase II: Para-clinical sciences including Pathology (disease mechanisms), Microbiology (pathogens and immunology), Pharmacology (drug action and therapeutics), Forensic Medicine (medicolegal aspects)

Phase III: Comprehensive clinical training across Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, and specialty rotations including Ophthalmology, ENT, Dermatology, Psychiatry, and allied disciplines

---

3. Christian Medical College (CMC), Vellore

Location: Vellore, Tamil Nadu

Curriculum: NMC-approved curriculum with emphasis on clinical excellence and community medicine.

Phase I: Anatomy (541 teaching hours covering gross anatomy, microanatomy, embryology, neuroanatomy), Physiology (cardiovascular, respiratory, nervous systems), Biochemistry (biomolecules, enzymes, DNA/RNA)

Phase II: Pathology (general and systemic), Microbiology (bacterial, viral, fungal infections), Pharmacology (pharmacokinetics, pharmacodynamics), Forensic Medicine (autopsies, legal responsibilities)

Phase III: Medicine (cardiovascular, respiratory, GI diseases), Surgery (surgical techniques, wound management), Pediatrics (child health, vaccinations), Obs-Gyn (prenatal care, delivery management), Orthopedics (fractures, bone diseases), plus specialty rotations

---

4. Jawaharlal Institute of Post Graduate Medical Education & Research (JIPMER), Puducherry

Location: Puducherry, Pondicherry

Curriculum: Competency-based undergraduate curriculum as per NMC standards.

Phase I (13 months): Pre-clinical subjects - Anatomy, Physiology, Biochemistry with foundation course, humanities, professional development, AETCOM module, early clinical exposure

Phase II (12 months): Para-clinical phase - Pathology, Pharmacology, Microbiology, Community Medicine, Forensic Medicine & Toxicology with clinical integration

Phase III (28 months): Clinical subjects including Medicine and allied specialties, Surgery and allied specialties, Obs-Gyn, Pediatrics, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry, Anesthesiology, plus 2-month electives for research/community projects

---

5. Sanjay Gandhi Postgraduate Institute of Medical Sciences (SGPGIMS), Lucknow

Location: Lucknow, Uttar Pradesh

Curriculum: Follows NMC competency-based medical education framework.

Phase I: Foundation in Anatomy (structure of human body, tissues, embryology), Physiology (organ systems functioning), Biochemistry (chemical processes in living organisms)

Phase II: Pathology (disease causation and progression), Pharmacology (therapeutic drug use and effects), Microbiology (infectious diseases), Forensic Medicine (medicolegal issues)

Phase III: Clinical rotations in General Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, Dermatology, Ophthalmology, ENT, Psychiatry, Respiratory Medicine, with focus on practical patient care and management

---

6. Banaras Hindu University (BHU), Institute of Medical Sciences, Varanasi

Location: Varanasi, Uttar Pradesh

Curriculum: NMC-regulated curriculum with horizontal and vertical integration.

Phase I: Pre-clinical sciences - Anatomy (gross, micro, embryology, neuroanatomy), Physiology (blood circulation, respiratory, nervous, endocrine, digestive systems), Biochemistry (proteins, lipids, carbohydrates, enzymes)

Phase II: Para-clinical subjects - Pathology (inflammation, infection, systemic diseases), Microbiology (pathogen identification, immunology), Pharmacology (drug classifications, therapeutic uses), Forensic Medicine (post-mortem, legal aspects)

Phase III: Clinical training in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Psychiatry, ENT, Ophthalmology, Dermatology, Anesthesiology, Radiodiagnosis, with comprehensive patient exposure and management skills development

---

7. National Institute of Mental Health & Neuro Sciences (NIMHANS), Bengaluru

Location: Bengaluru, Karnataka

Curriculum: Standard NMC curriculum with specialized focus on neurosciences and mental health.

Phase I: Foundational sciences - Anatomy (special emphasis on neuroanatomy), Physiology (nervous system physiology), Biochemistry (neurotransmitters, metabolic pathways), Community Medicine introduction

Phase II: Pathology (neuropathology emphasis), Pharmacology (psychopharmacology, neuro-drugs), Microbiology (CNS infections), Forensic Medicine (medicolegal psychiatry)

Phase III: Comprehensive clinical training in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, with enhanced focus on Psychiatry (depression, schizophrenia, anxiety disorders, psychological treatments) and Neurology, plus standard specialty rotations

---

8. King George's Medical University (KGMU), Lucknow

Location: Lucknow, Uttar Pradesh

Curriculum: NMC competency-based curriculum with integrated teaching approach.

Phase I: Pre-clinical - Anatomy (human body structure, histology, embryology), Physiology (body functions, homeostasis), Biochemistry (molecular biology, genetics), early clinical exposure

Phase II: Para-clinical - Pathology (disease mechanisms), Microbiology (pathogens and immunity), Pharmacology (drug therapy), Forensic Medicine & Toxicology (legal medicine)

Phase III: Clinical subjects - General Medicine (common diseases diagnosis and management), General Surgery (surgical principles, procedures), Pediatrics (child healthcare), Obs-Gyn (women's health, pregnancy care), Orthopedics (musculoskeletal disorders), plus ENT, Ophthalmology, Dermatology, Psychiatry rotations

---

9. Amrita Vishwa Vidyapeetham, Amrita School of Medicine, Kochi

Location: Kochi, Kerala

Curriculum: Follows NMC guidelines with technology-enhanced learning and simulation-based training.

Phase I: Anatomy (gross anatomy, microanatomy, embryology, neuroanatomy), Physiology (all body systems), Biochemistry (biomolecular processes), Introduction to Community Medicine, AETCOM, humanities

Phase II: Pathology (general and systemic pathology), Pharmacology (clinical pharmacology), Microbiology (bacteriology, virology, parasitology), Forensic Medicine (medicolegal aspects), Community Medicine continuation

Phase III: Medicine (internal medicine specialties), Surgery (general and specialty surgery), Pediatrics (neonatology, child diseases), Obs-Gyn (obstetrics, gynecology, family planning), Orthopedics, Ophthalmology, ENT, Dermatology, Psychiatry, Anesthesiology, plus elective postings

---

10. Kasturba Medical College (KMC), Manipal

Location: Manipal, Karnataka

Curriculum: NMC-approved curriculum with problem-based learning approach.

Phase I (1st Year): Pre-clinical subjects - Anatomy, Physiology, Biochemistry with integrated teaching, foundation course, professional development, early clinical exposure

Phase II (2nd Year): Para-clinical subjects - Pathology, Pharmacology, Microbiology, Community Medicine, Forensic Medicine & Toxicology with introduction to clinical sciences

Phase III (3rd-5th Year): Clinical phase - Medicine and allied (Cardiology, Respiratory, Gastroenterology), Surgery and allied (General Surgery, Orthopedics), Pediatrics, Obs-Gyn, Dermatology, Psychiatry, ENT, Ophthalmology, Anesthesiology, Radiodiagnosis, 2-month electives

---

11. Maulana Azad Medical College (MAMC), New Delhi

Location: New Delhi, Delhi

Curriculum: NMC competency-based curriculum with strong emphasis on clinical skills.

Phase I: Anatomy (comprehensive human anatomy), Physiology (system-based physiology), Biochemistry (clinical biochemistry), Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine with clinical correlation

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry, Respiratory Medicine, Anesthesiology, with extensive hospital-based training

---

12. Vardhman Mahavir Medical College & Safdarjung Hospital, New Delhi

Location: New Delhi, Delhi

Curriculum: Standard NMC curriculum with robust clinical exposure at Safdarjung Hospital.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry with early patient interaction

Phase II: Para-clinical subjects - Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Clinical training across all major specialties including Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, and specialty departments with high patient volume exposure

---

13. Atal Bihari Vajpayee Institute of Medical Sciences (ABVIMS) & DR RML Hospital, New Delhi

Location: New Delhi, Delhi

Curriculum: NMC-regulated competency-based medical education.

Phase I: Foundational medical sciences - Anatomy, Physiology, Biochemistry, with foundation course and humanities

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Comprehensive clinical training in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Dermatology, Ophthalmology, ENT, Psychiatry, Anesthesiology at tertiary care hospital

---

14. University College of Medical Sciences (UCMS), New Delhi

Location: New Delhi, Delhi

Curriculum: NMC curriculum with integrated teaching methodology.

Phase I: Anatomy (gross, micro, embryology, neuro), Physiology, Biochemistry, Community Medicine introduction

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine advanced

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry, with clinical skill development focus

---

15. Lady Hardinge Medical College (LHMC), New Delhi

Location: New Delhi, Delhi

Curriculum: NMC competency-based curriculum with focus on women and child health.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry with foundation course

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties - Medicine, Surgery, Pediatrics (enhanced focus), Obs-Gyn (enhanced focus), Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

16. AIIMS Bhubaneswar

Location: Bhubaneswar, Odisha

Curriculum: Follows AIIMS and NMC curriculum with identical structure to AIIMS Delhi.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine, AETCOM

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical - Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry, Respiratory Medicine, Radiodiagnosis, Anesthesiology, with 2-month electives

---

17. AIIMS Jodhpur

Location: Jodhpur, Rajasthan

Curriculum: Standard AIIMS curriculum aligned with NMC guidelines.

Phase I (13 months): Anatomy (541 teaching hours), Physiology, Biochemistry, Community Medicine, humanities, AETCOM module

Phase II (12 months): Pathology, Pharmacology, Microbiology, Community Medicine, Forensic Medicine & Toxicology with clinical integration

Phase III (28 months): Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Dermatology, ENT, Ophthalmology, Psychiatry, Respiratory Medicine, Radiodiagnosis, Anesthesiology, plus electives

---

18. Government Medical College and Hospital (GMCH), Chandigarh

Location: Chandigarh, Chandigarh

Curriculum: NMC competency-based curriculum with government hospital training.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry, Anesthesiology, with practical training in busy government hospital setting

---

19. AIIMS Rishikesh

Location: Rishikesh, Uttarakhand

Curriculum: AIIMS curriculum following NMC competency-based framework.

Phase I: Pre-clinical subjects - Anatomy, Physiology, Biochemistry, Community Medicine, humanities, professional development

Phase II: Para-clinical subjects - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training - Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty rotations, electives for research and community projects

---

20. Grant Medical College & Sir JJ Group of Hospitals, Mumbai

Location: Mumbai, Maharashtra

Curriculum: NMC-approved curriculum with extensive clinical exposure at JJ Hospital.

Phase I: Foundational sciences - Anatomy, Physiology, Biochemistry

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry with high-volume patient care experience

---

21. Seth GS Medical College & KEM Hospital, Mumbai

Location: Mumbai, Maharashtra

Curriculum: Standard NMC curriculum with strong clinical training at KEM Hospital.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine introduction

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties across Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, and all allied specialties

---

22. Topiwala National Medical College & BYL Nair Hospital, Mumbai

Location: Mumbai, Maharashtra

Curriculum: NMC competency-based medical education.

Phase I: Anatomy, Physiology, Biochemistry with early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Comprehensive clinical training in all major and minor specialties

---

23. Lokmanya Tilak Municipal Medical College (LTMMC), Mumbai

Location: Mumbai, Maharashtra

Curriculum: Follows NMC guidelines with practical-oriented training.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry

Phase II: Para-clinical sciences - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry, Anesthesiology

---

24. Government Medical College (GMC), Thiruvananthapuram

Location: Thiruvananthapuram, Kerala

Curriculum: NMC curriculum with focus on community health.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical subjects including Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

25. Madras Medical College (MMC), Chennai

Location: Chennai, Tamil Nadu

Curriculum: Standard NMC competency-based curriculum.

Phase I: Pre-clinical - Anatomy (gross, micro, embryology, neuroanatomy), Physiology, Biochemistry

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Clinical training - Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

26. Government Stanley Medical College, Chennai

Location: Chennai, Tamil Nadu

Curriculum: NMC-approved curriculum with government hospital training.

Phase I: Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

27. Kilpauk Medical College (KMC), Chennai

Location: Chennai, Tamil Nadu

Curriculum: Follows NMC competency-based framework.

Phase I: Pre-clinical subjects - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical subjects - Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Clinical specialties with practical training

---

28. AIIMS Patna

Location: Patna, Bihar

Curriculum: AIIMS curriculum aligned with NMC standards.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine, AETCOM, humanities

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty rotations, electives

---

29. Sawai Man Singh (SMS) Medical College, Jaipur

Location: Jaipur, Rajasthan

Curriculum: NMC competency-based curriculum.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training across all specialties

---

30. Government Medical College (GMC), Kozhikode

Location: Kozhikode, Kerala

Curriculum: Standard NMC curriculum with community medicine emphasis.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty departments

---

31. Bangalore Medical College and Research Institute (BMCRI), Bengaluru

Location: Bengaluru, Karnataka

Curriculum: NMC-approved competency-based curriculum.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry

Phase II: Para-clinical sciences - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties - Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

32. Institute of Medical Sciences (IMS), BHU, Varanasi

Location: Varanasi, Uttar Pradesh

Curriculum: NMC curriculum with integrated teaching.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine introduction

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty rotations

---

33. Armed Forces Medical College (AFMC), Pune

Location: Pune, Maharashtra

Curriculum: NMC curriculum with military medicine components.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, plus military training

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with defense medical services orientation

---

34. Government Medical College (GMC), Nagpur

Location: Nagpur, Maharashtra

Curriculum: Standard NMC competency-based curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty departments

---

35. AIIMS Raipur

Location: Raipur, Chhattisgarh

Curriculum: AIIMS curriculum following NMC guidelines.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine, AETCOM

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training - Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty rotations, electives

---

36. Jawaharlal Nehru Medical College (JNMC), AMU, Aligarh

Location: Aligarh, Uttar Pradesh

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

37. B.J. Medical College (BJMC), Ahmedabad

Location: Ahmedabad, Gujarat

Curriculum: NMC competency-based medical education.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with comprehensive training

---

38. Government Medical College (GMC), Surat

Location: Surat, Gujarat

Curriculum: Follows NMC guidelines.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

39. SCB Medical College, Cuttack

Location: Cuttack, Odisha

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry

Phase II: Para-clinical sciences - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training across all major specialties

---

40. Government Medical College (GMC), Aurangabad

Location: Aurangabad, Maharashtra

Curriculum: NMC-approved competency-based curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

41. Osmania Medical College, Hyderabad

Location: Hyderabad, Telangana

Curriculum: NMC curriculum with strong clinical exposure.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties - Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

42. Mysore Medical College and Research Institute (MMCRI), Mysuru

Location: Mysuru, Karnataka

Curriculum: Standard NMC competency-based framework.

Phase I: Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

43. Government Medical College (GMC), Patiala

Location: Patiala, Punjab

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical subjects - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical subjects - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training in all major and minor specialties

---

44. Guwahati Medical College, Guwahati

Location: Guwahati, Assam

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

45. Government Medical College (GMC), Kottayam

Location: Kottayam, Kerala

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with practical training

---

46. Gandhi Medical College (GMC), Secunderabad

Location: Secunderabad, Telangana

Curriculum: NMC competency-based curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

47. Pt. Bhagwat Dayal Sharma Post Graduate Institute of Medical Sciences (PGIMS), Rohtak

Location: Rohtak, Haryana

Curriculum: Follows NMC guidelines with postgraduate institute resources.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical sciences - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training with exposure to advanced tertiary care

---

48. Indira Gandhi Medical College (IGMC), Shimla

Location: Shimla, Himachal Pradesh

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

49. R.G. Kar Medical College, Kolkata

Location: Kolkata, West Bengal

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties across all departments

---

50. Medical College, Kolkata

Location: Kolkata, West Bengal

Curriculum: NMC competency-based medical education.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

51. Government Medical College (GMC), Jammu

Location: Jammu, Jammu & Kashmir

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry

Phase II: Para-clinical sciences - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

52. Silchar Medical College, Silchar

Location: Silchar, Assam

Curriculum: Standard NMC curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

53. Rajendra Institute of Medical Sciences (RIMS), Ranchi

Location: Ranchi, Jharkhand

Curriculum: NMC-approved competency-based curriculum.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with comprehensive training

---

54. Government Medical College (GMC), Srinagar

Location: Srinagar, Jammu & Kashmir

Curriculum: Follows NMC guidelines.

Phase I: Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

55. S.S. Medical College, Rewa

Location: Rewa, Madhya Pradesh

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical subjects - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical subjects - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training across all specialties

---

56. Government Medical College (GMC), Amritsar

Location: Amritsar, Punjab

Curriculum: NMC competency-based framework.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

57. Rajiv Gandhi Institute of Medical Sciences (RIMS), Kadapa

Location: Kadapa, Andhra Pradesh

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with practical training

---

58. Government Medical College (GMC), Guntur

Location: Guntur, Andhra Pradesh

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

59. S.M.S. Medical College, Jaipur (Duplicate Entry - See #29)

Location: Jaipur, Rajasthan

Curriculum: NMC competency-based curriculum (same as entry #29).

---

60. Andhra Medical College (AMC), Visakhapatnam

Location: Visakhapatnam, Andhra Pradesh

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical sciences - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training in all major and minor specialties

---

61. Coimbatore Medical College (CMC), Coimbatore

Location: Coimbatore, Tamil Nadu

Curriculum: NMC competency-based framework.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

62. Government Medical College (GMC), Thrissur

Location: Thrissur, Kerala

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with comprehensive training

---

63. J.L.N. Medical College, Ajmer

Location: Ajmer, Rajasthan

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

64. Government Medical College (GMC), Bhavnagar

Location: Bhavnagar, Gujarat

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical subjects - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical subjects - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training across all specialties

---

65. Silchar Medical College & Hospital, Silchar (Duplicate Entry - See #52)

Location: Silchar, Assam

Curriculum: Standard NMC curriculum (same as entry #52).

---

66. Tirunelveli Medical College, Tirunelveli

Location: Tirunelveli, Tamil Nadu

Curriculum: NMC competency-based framework.

Phase I: Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

67. Dr. Vasantrao Pawar Medical College, Nashik

Location: Nashik, Maharashtra

Curriculum: Follows NMC guidelines (Private institution).

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with hospital-based training

---

68. Government Medical College (GMC), Baroda

Location: Baroda (Vadodara), Gujarat

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

69. Rangaraya Medical College, Kakinada

Location: Kakinada, Andhra Pradesh

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry

Phase II: Para-clinical sciences - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training in all specialties

---

70. Government Medical College (GMC), Calicut

Location: Calicut (Kozhikode), Kerala

Curriculum: NMC competency-based framework (same as entry #30).

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

71. Government Medical College (GMC), Miraj

Location: Miraj, Maharashtra

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with comprehensive training

---

72. Mahatma Gandhi Memorial Medical College, Indore

Location: Indore, Madhya Pradesh

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

73. Patna Medical College, Patna

Location: Patna, Bihar

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical subjects - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical subjects - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training across all specialties

---

74. Gauhati Medical College & Hospital, Guwahati (Duplicate Entry - See #44)

Location: Guwahati, Assam

Curriculum: NMC competency-based framework (same as entry #44).

---

75. S.P. Medical College, Bikaner

Location: Bikaner, Rajasthan

Curriculum: Follows NMC guidelines.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

76. Government Medical College (GMC), Akola

Location: Akola, Maharashtra

Curriculum: NMC-approved curriculum.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with practical training

---

77. ESIC Medical College, Faridabad

Location: Faridabad, Haryana

Curriculum: Standard NMC curriculum with focus on occupational health.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine (including occupational health)

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments with emphasis on employee health services

---

78. AIIMS Madurai

Location: Madurai, Tamil Nadu

Curriculum: AIIMS curriculum following NMC guidelines.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine, AETCOM, humanities

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training - Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty rotations, electives

---

79. Government Vellore Medical College, Vellore

Location: Vellore, Tamil Nadu

Curriculum: NMC competency-based curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

80. Kakatiya Medical College, Warangal

Location: Warangal, Telangana

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry

Phase II: Para-clinical sciences - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training in all major and minor specialties

---

81. Government Medical College (GMC), Anantapur

Location: Anantapur, Andhra Pradesh

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

82. M.K.C.G. Medical College, Berhampur

Location: Berhampur, Odisha

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with comprehensive training

83. Government Medical College (GMC), Nizamabad

Location: Nizamabad, Telangana

Curriculum: NMC competency-based framework.

Phase I: Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

84. Tezpur Medical College, Tezpur

Location: Tezpur, Assam

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical subjects - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical subjects - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training across all specialties

---

85. Shri Vasantrao Naik Government Medical College, Yavatmal

Location: Yavatmal, Maharashtra

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

86. Government Medical College (GMC), Kota

Location: Kota, Rajasthan

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with practical training

---

87. Government Medical College (GMC), Dungarpur

Location: Dungarpur, Rajasthan

Curriculum: NMC competency-based framework.

Phase I: Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

88. Fakhruddin Ali Ahmed Medical College, Barpeta

Location: Barpeta, Assam

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical sciences - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training in all specialties

---

89. ESIC Medical College, Hyderabad

Location: Hyderabad, Telangana

Curriculum: NMC-approved curriculum with occupational health focus.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine (including industrial health)

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

90. Government Medical College (GMC), Kannur

Location: Kannur, Kerala

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with comprehensive training

---

91. Dr. Rajendra Prasad Government Medical College, Tanda

Location: Tanda, Himachal Pradesh

Curriculum: NMC competency-based framework.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

92. Government Medical College (GMC), Nanded

Location: Nanded, Maharashtra

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical subjects - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical subjects - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training across all specialties

---

93. Government Medical College (GMC), Palakkad

Location: Palakkad, Kerala

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, early clinical exposure

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

94. Government Medical College (GMC), Ratlam

Location: Ratlam, Madhya Pradesh

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with practical training

---

95. Government Medical College (GMC), Baramati

Location: Baramati, Maharashtra

Curriculum: NMC competency-based framework.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine basics

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, specialty departments

---

96. Government Medical College (GMC), Omandurar

Location: Chennai, Tamil Nadu

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical sciences - Anatomy, Physiology, Biochemistry

Phase II: Para-clinical sciences - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training in all major and minor specialties

---

97. Government Medical College (GMC), Jalaun

Location: Jalaun, Uttar Pradesh

Curriculum: NMC-approved curriculum.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, all specialty rotations

---

98. Government Medical College (GMC), Bettiah

Location: Bettiah, Bihar

Curriculum: Standard NMC curriculum.

Phase I: Pre-clinical - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical specialties with comprehensive training

---

99. ESIC Medical College & Hospital, Bangalore

Location: Bengaluru, Karnataka

Curriculum: NMC competency-based framework with occupational health emphasis.

Phase I: Anatomy, Physiology, Biochemistry, Community Medicine (including occupational medicine)

Phase II: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine

Phase III: Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, ENT, Ophthalmology, Dermatology, Psychiatry

---

100. Government Medical College (GMC), Purnea

Location: Purnea, Bihar

Curriculum: Follows NMC guidelines.

Phase I: Pre-clinical subjects - Anatomy, Physiology, Biochemistry, Community Medicine

Phase II: Para-clinical subjects - Pathology, Pharmacology, Microbiology, Forensic Medicine & Toxicology, Community Medicine

Phase III: Clinical training across Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, and all specialty departments

---

MBBS Curriculum Overview

All MBBS colleges in India follow the standardized curriculum set by the National Medical Commission (NMC), ensuring uniform medical education quality across the country. The curriculum is designed as a competency-based undergraduate program spanning 5.5 years.

Duration Structure

- **Total Duration:** 5.5 years
- **Academic Education:** 4.5 years (9 semesters)
- **Compulsory Rotating Internship:** 1 year

Three-Phase Curriculum

Phase I - Pre-Clinical (13 months including 1-month foundation course)

Core subjects forming the foundation of medical science:

- **Anatomy:** Gross anatomy, histology, embryology, neuroanatomy (approximately 541 teaching hours)
- **Physiology:** Study of body functions, organ systems, homeostasis
- **Biochemistry:** Biomolecules, metabolic pathways, genetics, molecular biology
- **Community Medicine:** Introduction to public health and preventive medicine
- **Humanities:** Professional development, communication skills
- **AETCOM Module:** Attitude, Ethics, and Communication training
- **Early Clinical Exposure:** Patient interaction and basic clinical skills

Phase II - Para-Clinical (12 months)

Bridging basic sciences with clinical practice:

- **Pathology:** Disease mechanisms, inflammation, systemic pathology
- **Pharmacology:** Drug actions, therapeutics, pharmacokinetics, pharmacodynamics
- **Microbiology:** Bacteriology, virology, parasitology, immunology
- **Community Medicine:** Public health, epidemiology, health statistics
- **Forensic Medicine & Toxicology:** Medicolegal aspects, autopsies, legal responsibilities
- **Introduction to Clinical Subjects:** Horizontal and vertical integration

Phase III - Clinical (28 months)

Part I (13 months):

- General Medicine and allied specialties (Psychiatry, Dermatology, Respiratory Medicine)
- General Surgery and allied specialties (Orthopedics, Anesthesiology)
- Obstetrics & Gynecology (including Family Welfare)
- Pediatrics (child health, growth, development)
- Otorhinolaryngology (ENT)
- Ophthalmology
- Community Medicine continuation
- Forensic Medicine continuation
- Radiodiagnosis & Radiotherapy
- Professional development including AETCOM

Electives (2 months):
Research projects, community health projects, self-directed learning, diverse clinical experiences

Part II (13 months):
Advanced clinical training with intensive rotations in:

- Medicine and allied specialties

- Surgery and allied specialties (including Trauma, Physical Medicine, Rehabilitation)
- Obstetrics & Gynecology
- Dentistry exposure
- Emergency medicine
- Critical care

Total Subjects: 19 Core Subjects

1. Anatomy
2. Physiology
3. Biochemistry
4. Pathology
5. Pharmacology
6. Microbiology
7. Forensic Medicine & Toxicology
8. Community Medicine
9. General Medicine
10. General Surgery
11. Pediatrics
12. Obstetrics & Gynecology
13. Orthopedics
14. Ophthalmology
15. Otorhinolaryngology (ENT)
16. Dermatology & Venereology
17. Psychiatry
18. Anesthesiology
19. Radiodiagnosis

Compulsory Rotating Internship (12 months)

Final year involves hands-on clinical training across departments:

- General Medicine (2 months)
- General Surgery (2 months)
- Obstetrics & Gynecology (2 months)
- Pediatrics (2 months)
- Orthopedics (1 month)
- ENT (1 month)
- Ophthalmology (1 month)
- Community Medicine (1 month)

Interns work under supervision, managing patient care, conducting examinations, assisting in procedures, and developing practical clinical skills essential for independent medical practice.

Note on Rankings

This list combines official NIRF 2025 rankings (top 50) with extended rankings based on NEET cutoff trends, admission preferences, and institutional reputation for positions 51-100. All colleges follow the same NMC-mandated curriculum, ensuring standardized medical education quality across India.

For admission details, NEET cutoffs, and fee structures, candidates should refer to the Medical Counselling Committee (MCC) website and respective state counseling authorities.

Top 20 MBBS Colleges in Nepal – Concise Structured Curriculum (2026)

1. Institute of Medicine (IOM), Tribhuvan University – Kathmandu

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

2. B.P. Koirala Institute of Health Sciences – Dharan

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

3. Kathmandu University School of Medical Sciences – Dhulikhel

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

4. Patan Academy of Health Sciences – Lalitpur

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

5. Nepal Medical College – Kathmandu

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

6. Manipal College of Medical Sciences – Pokhara

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

7. Chitwan Medical College – Bharatpur

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

8. KIST Medical College – Lalitpur

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

9. Universal College of Medical Sciences – Bhairahawa

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

10. National Medical College – Birgunj

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

11. Nepalgunj Medical College – Nepalgunj

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

12. Janaki Medical College – Janakpur

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

13. Gandaki Medical College – Pokhara

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

14. Lumbini Medical College – Palpa

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

15. Nobel Medical College – Biratnagar

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

16. Kathmandu Medical College – Kathmandu

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

17. Devdaha Medical College – Butwal

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

18. Birat Medical College – Biratnagar

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

19. College of Medical Sciences (COMS) – Bharatpur

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

20. Karnali Academy of Health Sciences – Jumla

Recognized by Nepal Medical Council (NMC Nepal). Duration: 5.5 Years (4.5 Academic + 1 Internship).

Phase I – Pre-Clinical:
Anatomy, Physiology, Biochemistry, Intro to Community Medicine, Early Clinical Exposure.

Phase II – Para-Clinical:
Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.

Phase III – Clinical:
Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Orthopedics, ENT, Ophthalmology, Psychiatry, Dermatology, Anesthesiology, Radiodiagnosis.

Internship (12 Months):
Rotations in Medicine, Surgery, Pediatrics, Obs-Gyn, Orthopedics, Emergency & Community postings.

Top 25 Medical Colleges in Europe (MBBS / MD Equivalent) – 2026

1. University of Oxford – United Kingdom

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

2. University of Cambridge – United Kingdom

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

3. Karolinska Institute – Sweden

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

4. Imperial College London – United Kingdom

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

5. University College London (UCL) – United Kingdom

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

6. Heidelberg University – Germany

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

7. Charité – Universitätsmedizin Berlin – Germany

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

8. KU Leuven – Belgium

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

9. University of Amsterdam – Netherlands

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

10. University of Copenhagen – Denmark

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

11. Sorbonne University – France

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

12. University of Zurich – Switzerland

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

13. University of Oslo – Norway

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

14. Trinity College Dublin – Ireland

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

15. University of Barcelona – Spain

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

16. University of Bologna – Italy

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

17. University of Vienna – Austria

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

18. Uppsala University – Sweden

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

19. Leiden University – Netherlands

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

20. LMU Munich – Germany

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

21. University of Helsinki – Finland

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

22. University of Milan – Italy

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

23. University of Edinburgh – United Kingdom

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

24. University of Glasgow – United Kingdom

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

25. University of Geneva – Switzerland

Recognized for excellence in medical education, research, and affiliated teaching hospitals.

Medical Degree Structure (MBBS / MD Equivalent in Europe):
Total Duration: 6 Years (Integrated Program).

Pre-Clinical Phase (Years 1–2):
Anatomy, Physiology, Biochemistry, Histology, Genetics, Public Health foundations.

Para-Clinical Phase (Year 3):
Pathology, Pharmacology, Microbiology, Forensic Medicine, Introduction to Clinical Medicine.

Clinical Phase (Years 4–6):
Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Orthopedics, ENT, Ophthalmology, Dermatology, Anesthesiology, Emergency Medicine.

Final Year:
Full-time clinical rotations and practical hospital training.
Degree awarded as MD (Primary Medical Qualification equivalent to MBBS).

Best Medical Colleges (MBBS Only) – 100 Countries

Excluding Europe, USA & India – 2026 Edition

Canada

Top Medical Institution: University of Toronto

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Mexico

Top Medical Institution: National Autonomous University of Mexico (UNAM)

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Brazil

Top Medical Institution: University of São Paulo

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Argentina

Top Medical Institution: University of Buenos Aires

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Chile

Top Medical Institution: Pontifical Catholic University of Chile

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Colombia

Top Medical Institution: University of Los Andes

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Peru

Top Medical Institution: Pontifical Catholic University of Peru

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Australia

Top Medical Institution: Australian National University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

New Zealand

Top Medical Institution: University of Auckland

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

China

Top Medical Institution: Tsinghua University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Japan

Top Medical Institution: University of Tokyo

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

South Korea

Top Medical Institution: Seoul National University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Pakistan

Top Medical Institution: National University of Sciences & Technology (NUST)

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Bangladesh

Top Medical Institution: University of Dhaka

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Sri Lanka

Top Medical Institution: University of Colombo

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Nepal

Top Medical Institution: Tribhuvan University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Bhutan

Top Medical Institution: Royal University of Bhutan

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Thailand

Top Medical Institution: Chulalongkorn University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Malaysia

Top Medical Institution: University of Malaya

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Singapore

Top Medical Institution: National University of Singapore

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Indonesia

Top Medical Institution: University of Indonesia

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Philippines

Top Medical Institution: University of the Philippines

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Vietnam

Top Medical Institution: Vietnam National University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Myanmar

Top Medical Institution: University of Yangon

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Cambodia

Top Medical Institution: Royal University of Phnom Penh

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Laos

Top Medical Institution: National University of Laos

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Mongolia

Top Medical Institution: National University of Mongolia

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Kazakhstan

Top Medical Institution: Al-Farabi Kazakh National University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Uzbekistan

Top Medical Institution: National University of Uzbekistan

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

UAE

Top Medical Institution: United Arab Emirates University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Saudi Arabia

Top Medical Institution: King Abdulaziz University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Qatar

Top Medical Institution: Qatar University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Kuwait

Top Medical Institution: Kuwait University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Oman

Top Medical Institution: Sultan Qaboos University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Iran

Top Medical Institution: University of Tehran

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Iraq

Top Medical Institution: University of Baghdad

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Jordan

Top Medical Institution: University of Jordan

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Lebanon

Top Medical Institution: American University of Beirut

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Israel

Top Medical Institution: Hebrew University of Jerusalem

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Egypt

Top Medical Institution: Cairo University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

South Africa

Top Medical Institution: University of Cape Town

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Nigeria

Top Medical Institution: University of Ibadan

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Kenya

Top Medical Institution: University of Nairobi

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Ghana

Top Medical Institution: University of Ghana

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Ethiopia

Top Medical Institution: Addis Ababa University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Tanzania

Top Medical Institution: University of Dar es Salaam

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Uganda

Top Medical Institution: Makerere University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Zimbabwe

Top Medical Institution: University of Zimbabwe

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Morocco

Top Medical Institution: Mohammed V University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Tunisia

Top Medical Institution: University of Tunis

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Algeria

Top Medical Institution: University of Algiers

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Botswana

Top Medical Institution: University of Botswana

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Namibia

Top Medical Institution: University of Namibia

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Zambia

Top Medical Institution: University of Zambia

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Mozambique

Top Medical Institution: Eduardo Mondlane University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Angola

Top Medical Institution: Agostinho Neto University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Rwanda

Top Medical Institution: University of Rwanda

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Senegal

Top Medical Institution: Cheikh Anta Diop University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Cameroon

Top Medical Institution: University of Yaoundé I

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Ivory Coast

Top Medical Institution: University of Félix Houphouët-Boigny

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

DR Congo

Top Medical Institution: University of Kinshasa

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Sudan

Top Medical Institution: University of Khartoum

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Libya

Top Medical Institution: University of Tripoli

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Somalia

Top Medical Institution: Somali National University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Madagascar

Top Medical Institution: University of Antananarivo

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Mauritius

Top Medical Institution: University of Mauritius

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Seychelles

Top Medical Institution: University of Seychelles

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Fiji

Top Medical Institution: University of the South Pacific

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Papua New Guinea

Top Medical Institution: University of Papua New Guinea

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Solomon Islands

Top Medical Institution: Solomon Islands National University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Samoa

Top Medical Institution: National University of Samoa

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Tonga

Top Medical Institution: University of the South Pacific (Tonga Campus)

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Jamaica

Top Medical Institution: University of the West Indies

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Trinidad & Tobago

Top Medical Institution: University of the West Indies

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Cuba

Top Medical Institution: University of Havana

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Dominican Republic

Top Medical Institution: Autonomous University of Santo Domingo

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Costa Rica

Top Medical Institution: University of Costa Rica

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Panama

Top Medical Institution: University of Panama

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Guatemala

Top Medical Institution: University of San Carlos

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Honduras

Top Medical Institution: National Autonomous University of Honduras

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

El Salvador

Top Medical Institution: University of El Salvador

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Nicaragua

Top Medical Institution: National Autonomous University of Nicaragua

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Bolivia

Top Medical Institution: Major University of San Andrés

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Paraguay

Top Medical Institution: National University of Asunción

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Uruguay

Top Medical Institution: University of the Republic

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Venezuela

Top Medical Institution: Central University of Venezuela

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Ecuador

Top Medical Institution: University of San Francisco de Quito

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Guyana

Top Medical Institution: University of Guyana

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Suriname

Top Medical Institution: Anton de Kom University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Belize

Top Medical Institution: University of Belize

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Haiti

Top Medical Institution: State University of Haiti

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Afghanistan

Top Medical Institution: Kabul University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Maldives

Top Medical Institution: Maldives National University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Brunei

Top Medical Institution: Universiti Brunei Darussalam

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Timor-Leste

Top Medical Institution: National University of Timor Lorosa'e

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

North Korea

Top Medical Institution: Kim Il-sung University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Syria

Top Medical Institution: University of Damascus

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Yemen

Top Medical Institution: Sana'a University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Palestine

Top Medical Institution: Birzeit University

MBBS / MD (Primary Medical Degree) Structure:
Duration: 5–6 Years + 1 Year Internship (varies by country)

Pre-Clinical: Anatomy, Physiology, Biochemistry, Basic Sciences.
Para-Clinical: Pathology, Pharmacology, Microbiology, Forensic Medicine, Community Medicine.
Clinical: Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, ENT, Ophthalmology, Psychiatry.
Final Phase: Full-time hospital rotations with supervised clinical training.

Top 25 Medical Colleges in USA (MD – Equivalent to MBBS) – 2026

1. Harvard Medical School

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology, Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

2. Johns Hopkins University School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology, Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

3. Stanford University School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

4. University of California, San Francisco (UCSF) School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

5. Columbia University Vagelos College of Physicians and Surgeons

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

6. Mayo Clinic Alix School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

7. University of Pennsylvania Perelman School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

8. Yale School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

9. Washington University School of Medicine in St. Louis

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

10. Duke University School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

11. University of Chicago Pritzker School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

12. University of Michigan Medical School

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

13. Cornell University Weill Cornell Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

14. Northwestern University Feinberg School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

15. UCLA David Geffen School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

16. University of Washington School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

17. Vanderbilt University School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

18. Icahn School of Medicine at Mount Sinai

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

19. University of Pittsburgh School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

20. NYU Grossman School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

21. Baylor College of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

22. Emory University School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

23. Case Western Reserve University School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

24. University of North Carolina School of Medicine

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology,
Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics,
Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).

25. University of Southern California (Keck School of Medicine)

Recognized globally for excellence in medical education, research, and affiliated teaching hospitals.

Doctor of Medicine (MD) Program Structure:
Total Duration: 4 Years (After Undergraduate Degree) + Residency (3–7 Years).

Pre-Clinical Phase (Years 1–2):
Foundational sciences – Anatomy, Physiology, Biochemistry, Pathology, Pharmacology, Microbiology, Ethics, Clinical Skills training.

Clinical Phase (Years 3–4):
Core rotations – Internal Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, Psychiatry, Family Medicine, Emergency Medicine.
Electives in specialized fields.

Graduation Requirement:
USMLE Licensing Exams + Clinical Competency Assessments.
Degree Awarded: MD (Equivalent to MBBS Primary Medical Qualification).
